MINH NGUYEN

408.752.1082 | mtn43@cornell.edu | legitminh.github.io | USA

EDUCATION

Cornell University | David A. Duffield College of Engineering 2026.8 – Present
- Courses: OOD and Data Structures (Honors), Mathematical Foundations of Computing, Linear Algebra

Carnegie Mellon | National High School Game Academy 2025.6 – 2025.8
- Won Mass Appeal award with original game developed in 3 weeks **(minhn.itch.io/journeytothenest)** as PM on a team of 6.

Georgia Institute of Technology 2024.8 – 2026.5
- All A's in Multi-variable Calculus, Differential Equations, Intro to Computing, Object-Oriented Programming.

Gwinnett School of Mathematics, Science, and Technology 2021.8 – 2026.5
- AP score of 5: CSA, BC, Physics C Mechanics, Physics E&M, Chemistry
- Weighted GPA: 4.41 / 4.0. All A's. SAT: 1570 / 1600. PSAT: 1520 / 1520

EXPERIENCES

Intern, Lead Developer **Dr. Hatfield, University of South Carolina** 2025.6 – 2026.5
- Demo game (**roblox.com/games/93436821409832**) to **30+** students
- Ship on deadline in **2** months by virtually tracking **60+** tasks and host meetings.
- Implemented data-collection backend to research interactive education. Authored codebase and onboarding documentation.

Intern, Software Developer **Catchbackcards.com** 2025.8 – 2026.5
- Developed full-stack mobile app from scratch with authentication backend using Supabase and Expo.

Founder, Project Manager **Computer Science Honor Society (CSHS)** 2025.5 – 2026.5
- Coordinated **3** project teams that earned the **$1,000** Promising STEM Innovation Award from Samsung Solve for Tomorrow.

Vice-President, Web Design Instructor **Computer Science Club** 2022.8 – 2026.5
- Hosted bi-weekly meetings educating **20+** peers Git, HTML, JavaScript, React through building personal websites.
- Organized **7+** events, recruited **120+** members, and raised **$241** for CS initiatives.

PROJECTS

Waypoint | SpaceX Track & Best Use of Presage **devpost.com/software/waypoint-sc6dbi** 2025.9 – 2026.4
- Collaboratively developed computer vision focus monitor in **48** hours.
- Lead product idea and specifications. Own gemini-live feature, backend, and website at **creditslimitexceeded.study**.

Tic-Tac-Toe workshop **github.com/legitminh/TicTacToeAgent** 2025.9 – 2026.4
- Trained a reinforcement learning agent from scratch to reach **100%** accurate play after **200,000** episodes.
- Teach **15+** club members Q-learning, backpropagation, and gradient descent.

FocusFlow | HackGwinnett 1st place **github.com/legitminh/FocusFlow** 2025.11 – 2025.12
- Developed eye fatigue monitoring app in a 6-hour hackathon with team of 3. Responsible for core optical recognition algorithm.

AstroFest **github.com/legitminh/AstroFest** 2025.1 – Present
- Developed online and local multiplayer combat game with original music composition and procedurally generated battlefields.

Typing Piano **github.com/legitminh/TypingPiano** 2023.5 – 2025.2
- Programmed a rhythm game that procedurally generates levels from MIDI files.

SKILLS

Scripting Languages : Java, C++, C#, Python, Typescript, HTML, CSS
Tools : Linux, Docker, Numpy, Git, Perforce, React, Unity, Linear
Languages : Vietnamese C2, Chinese B1, Spanish A2.

AWARDS

2026	**Bridges Scholarship (61 admitted students)**	Duffield College of Engineering
2026	**Hunter R. Rawlings III Cornell Presidential Research Scholarship**	Cornell University
2026	**Stamp President Scholarship Finalist (150 selected from 46,000 applicants)**	Georgia Institute of Technology
2026	**Jack Kent Cooke semifinalist (568 selected from 6,500 applicants)**	Jack Kent Cooke Foundation
2025	**National Merit Finalist (15,000 students nationwide, class of 2026)**	National Merit Scholarship Corp.
2025	**CALICO Silver (top 75 in 551 teams)**	CALICO Informatics | U.C. Berkeley
2025	**Non-trivial Research Foundations (∼1% acceptance rate)**	Non-trivial
2024-2025	**CyberQuest 1st place, CodeQuest 2nd place**	Lockheed Martin
2025	**CyberQuest 1st place**	Lockheed Martin
2024	**CodeQuest 2nd place**	Lockheed Martin
